Our Hotel-Gasthof has been located in a quiet area for over 200 years. It is overlooked small. The personal contact to the host family is always possible. Peace and recovery in the midst of healthy nature. For body, mind and soul. In any weather. At any time of the year.

Our contribution to environmental protection: we generate around 60% of the electricity we use ourselves through our photovoltaic system. The entire building is thermally insulated and the heat recovery from the cooling systems provides (almost solely) for the hot water. Since May 2014, an air-to-air heat pump has been providing environmentally friendly heating energy.

LED lamps, regional purchasing and environmentally friendly cleaning products are further contributions. We only change the hand and shower towels a maximum of twice a week - unless you want a different frequency. Then simply contact us.

Really very friendly, nice personal "care" and good food in and from Gasthof Hirsch! THANK YOU!

Innkeeper very friendly and flexible. Nice concept with the self-service.

Hotel Hirsch in Sprollenhaus. A beautiful, old inn that is professionally run with love. The innkeeper was on his own at the time and it was a pleasure to watch him at work: quick, without appearing stressed, accommodating, good-humored. A true original!

A completely different experience. I've never experienced such friendly hosts, so personal and really unpretentious, a huge room, very quiet. Wonderful.

### Robert Schultz (March 2019):

... The team is very friendly and cordial, it gives the stay a very special charm, which you won't find in most hotels anymore. The catering is very good, the team shows a great commitment to offer the guests a pleasant stay. Quite great.

### Armin Protze (November 2018)

5 days business stay were made as pleasant as possible for me by personnel. Since I spend most of my nights in hotels, I can assure you that this is far above average in the price segment. Above all, one gets the feeling to be a guest; thus, also the hotelier is very obliging and friendly.

### Hannelore Muth (October 2018):

I've been here 15 days and for the sixth time. It is always a rest. The staff is helpful and friendly. The rooms are spacious and clean. The food is sufficient and very good. No matter what you need, there is always help. The surroundings are recommended for recreation and hiking at all levels. I come again.

### Winfried (September 2018):

... Mr. Treiber is as described by other guests, always in a good mood, friendly, helpful, courteous, simply great. Large room, large shower extra WC, balcony. Breakfast super it is always replenished if something is missing. Nothing is missing, super ham, eggs with bacon are freshly prepared. ... In the morning you can already buy the picture newspaper and a small shop is also simply super. We will certainly come back.

A video tour shows you a first impression: click on the first room picture on the original German page [www.gasthof-hirsch.de](http://www.gasthof-hirsch.de) - Zimmer.

All rooms are very quiet. Mostly to the south or southwest. They are bright, sunny rooms. Almost all of them can be reached by lift.

Example for room "Fallenkopf" with (partly flush) shower and (partly separate) WC (both in the room of course!), health beds, flat screen TV with radio, telephone, free WiFi, desk, locker, cosmetic, shaving and dressing mirror, carpeting, furnished balcony, beautiful view of the Black Forest.

Overnight stay with breakfast 32.50 to 34.50 euros

Example for room "Schöngarn" with (partly flush) shower and (partly separate) WC (both of course in the room!), hair dryer, health beds, living part, flat screen TV with radio, telephone, free WiFi, desk, locker, cosmetic, shaving and dressing mirror, carpeting, furnished balcony, wonderful view into the greenery of the Black Forest pure.

Overnight stay with breakfast 34.50 to 39.50 euros

Room example "Schwarzmiss": Equipment like Schöngarn. With even more living space and an even larger bathroom.

Overnight stay with breakfast 39.50 to 49.50 euros

Priceless and yet included: friendly, helpful "good spirits" who are happy to look after you. Good Black Forest air, pure nature, peace and quiet - your ears will prick up!
